Joy Mining Machinery Ships 200th 7LS Shearer

WARRENDALE, PENNSYLVANIA – June 2010 – Joy Mining Machinery manufactured its 200th 7LS model shearer and shipped it to the Shaanxi Coal Group in China. That makes 200 JOY 7LS shearers shipped globally and 90 JOY shearers now in China.

The most productive mining operations in the world choose the JOY 7LS because it mines at seam heights and production rates never before attained.

Capable of single-pass mining the thickest extraction in excess of 20 feet (six metres), this high-performance shearer incorporates a powerful haulage unit with JNA controls and achieves customer expectations for Zero Harm, Most Productive Equipment and the Lowest Cost Per Ton.
